

UTSO MONDAL

Full Stack Developer (MERN)

Mirpur, Dhaka, Bangladesh | +8801580761282 | utsomondal2025@gmail.com

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Final-year Computer Science & Engineering student (World University of Bangladesh, CGPA 3.44) specializing in full-stack development with React, Next.js, and Node.js. Built and deployed multiple production-style applications end-to-end, covering REST API design, JWT authentication, and MongoDB data modeling, and currently developing an AI-based thesis on career recommendation systems using NLP. Fast learner with a disciplined, analytical approach to solving real problems.

TECHNICAL SKILLS

Languages: JavaScript (ES6+)

Frontend: React.js, Next.js, Tailwind CSS, Framer Motion, HTML5, CSS3

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, System Architecture

Databases: MongoDB, Supabase

Tools & Workflow: Git & GitHub, Thunder Client, VS Code, Vercel, Netlify, Firebase, Agile Workflow

PROJECTS

CareerLogr [\[Live\]](#) [\[GitHub\]](#) - Full-Stack Job Application Tracker - React (Vite), TanStack Query, Node.js, Express, MongoDB, JWT

- Built a full-stack CRUD app to centralize job-application tracking (company, status, interview progress), replacing scattered spreadsheets and notes.
- Implemented JWT authentication with HTTP-only cookie sessions, verified via backend middleware on every protected route.
- Built a dashboard with status tracking and analytics using TanStack Query, Recharts, and Tailwind CSS.

PalliByte Studio Website [\[Live\]](#) - Next.js 16, Tailwind CSS, Framer Motion, MongoDB Atlas, Vercel

- Built and deployed the official full-stack website for a digital design studio using Next.js 16 (App Router) and Framer Motion for a responsive, interactive client experience.
- Engineered a serverless contact system with server-side input validation to capture client inquiries and package selections directly into MongoDB.
- Configured custom domain mapping via IT Nut Hosting with Vercel DNS management, automated SSL/TLS encryption, and continuous production deployment.

THESIS & APPLIED AI RESEARCH

An AI-Based Career Pathway Recommendation System for Bangladeshi Students - Final-Year Thesis

- Building a content-based recommendation engine that maps skills extracted from local job postings onto 17 technical domains using Sentence-BERT embeddings.
- Designing role-domain weighting across 12 fixed career roles with a deterministic RoleScore ranking algorithm for explainable Top-3 recommendations.

EDUCATION

World University of Bangladesh (WUB) 2022 - 2026

BSc. in Computer Science & Engineering - CGPA: 3.44 (11 of 12 semesters complete; final semester in progress)

Rajshahi College, Rajshahi 2019 - 2020

Higher Secondary Certificate (Science) - GPA: 5.00

Naogaon K.D Govt. High School, Naogaon 2019

Secondary Secondary Certificate (Science) - GPA: 5.00

CERTIFICATIONS & HONORS

- Frontend Development Libraries - freeCodeCamp, 2025
- Introduction to Prompt Engineering - Simplilearn / SkillUp, 2025
- Special English Language Proficiency Certificate - World University of Bangladesh
- Top 10 Winner - Code-Clash Programming Competition, 2023
